

ADJACENT NEIGHBOR NOTIFICATION

In some cases, improvement projects greatly affect adjacent properties. Although final approval rests with the Architectural Review Board, the Board reserves the right to notify your immediate neighbors of your proposed plans. Prior to submitting your application, the ARB recommends that you give your neighbors a "courtesy contact" to inform them about your plan. *The installation of a fence on a shared property line requires the notification and consent of adjacent property owners.* If the ARB finds it necessary to contact adjacent property owners, approval of your application could be delayed.

Please list the names of **all** neighbors whose properties border yours, *including property owners on both sides, across the street, and behind.* Next to their names, indicate by "yes" or "no," whether you have contacted them and whether or not they support your plans.
